

All About Me

CTE Intro

Office 2007

Create a slide show about you. You should create at least 10 pages from the following choices (Some choices may require more than one page to illustrate):

1. Title page “_____”
2. Introduction to who I am
3. My family
4. Where I live (home, city, state, country, etc.)
5. What I like to do (hobbies/talents/activities)
6. My friends
7. My room
8. Favorite music/group
9. Schools you have attended
10. Other: Favorite subjects in School
 Favorite books/movies
 Favorite places to go on vacation/dream vacation
 _____?

Design the visual elements of your slide show. Keep the following in mind.

- a. Backgrounds – you must have backgrounds of *different types* throughout your slideshow.
- b. Pictures – you must have pictures, either from the internet, clipart, or your file, somewhere in the power point.
- c. Sounds -- There must be sounds added to animations somewhere—not necessarily on every page, but you must put in sounds. Do not use any other method other than through animations.
- d. Text must be animated at some point in your power point.
- e. Your power point should be readable—if your backgrounds are too obnoxious and the words cannot be read, you will be docked. You can easily change the transparency of your backgrounds.
- f. All ten slides must be finished.
